Sir:

Pursuant to 37 CFR §1.56, §1.97, §1.98, and MPEP §609, applicant encloses a copy of the references listed on the attached form PTO/SB/08A for consideration by the Examiner. The references are cited/discussed in paragraphs [0003] - [0008] of the specification as filed in the US National Phase of International application PCT/JP03/16361, on 17 June 2005 with the USPTO.

The Examiner should note that, although there is no English abstract or translation of reference #1, pages 168-171 of A Dictionary Of Glass (issued on 20 September 1985), a discussion of the reference in comparison to the present invention was included in the application, at pages 1-2 of the specification as it was filed in the National Phase on 17 June 2005. Such comparison is not meant to be exhaustive of the differences between the reference and the present invention, but merely illustrative.

The listed references are being cited only in the interests of candor and without any admission that they constitute statutory prior art or contain matter which anticipates the present invention or which would render the same obvious, either singly or in combination, to a person of ordinary skill in the art.

Favorable consideration is respectfully requested.

Respectfully submitted,
